I specialize in front-end development. I mainly use pure JavaScript, React, React-Redux and React-Router to build single page application and using Node.js, Express and MongoDB to create API. I also have experience of using Scrum methodology in product development. I am looking for a team that is open to different technology.

## EXPERIENCE

---

### Web Development Intern, Mangadou

Remote, 2018 December - now

- Mangadou is a website where users can learn Japanese by Manga. I am mainly responsible for developing an admin to add manga, building an api for fetching manga and building UI for rendering manga.

### Web Development Volunteer, Giki

Remote, 2019 February - now

- Giki's product is an mobile application that provides a way to find ethical product. I worked on building a web application on the basis of existing mobile app.

### Product Manager, FashionGuide

Taiwan, 2016 July - 2017 February

- Managed new platform launch
- Researched purchasing behavior by clustering analysis
- Helped content team define SEO keywords by using SimilarWeb to analyze popular searches

### Product Manager, Gogolook

Taiwan, 2015 January - 2016 March

My responsibility covered entire product lifecycle. I was especially working on user research and translating it into functional product specification. This included collaborating with engineers and designers to:

- Led research methods such as interviews, affinity diagram, and dot voting to help teammates with multidiscipline background to understand users' need
- Prioritised user feedbacks by establishing quantitative criteria
- Increased 5% global registration rate by new registration flow which was based on A/B testing
- Monitored the optimization of sorting algorithm and database improvement by analysing metrics
- Helped product managers to be familiar with data analysis tool

### UX Researcher (Internship), Gogolook

Taiwan, 2014 Mar - 2014 May

- Helped partners in Korea to validate problems by UX research
- Designed a new information reporting flow, which was based on database and competitor analysis

### Usability Testing Assistant, DITLab

Taiwan, 2013 Oct - 2014 Ma

- Help Zyxel to Conduct usability testing via structural tasks and the think-aloud protocol
- Quantified usability issues by applying ASQ (After Scenario Questionnaire) and QUIS (Questionnaire for User Interaction Satisfaction)

## CERTIFICATE

---

JavaScript Algorithms and Data Structures Projects -  
*issued by freeCodeCamp*

## SKILLS

---

### Web development

React  
Redux  
React Router  
JavaScript ES6  
Node.js  
Express  
MongoDB  
Chai  
HTML5  
CSS3  
SASS  
Bootstrap  
Git

### Wireframing & Prototyping

Sketch  
[Axure RP \( link \)](#)

## PUBLICATION

---

Age-related differences in striatal, medial temporal, and frontal involvement during value-based decision processing

## AWARD

---

2013 Kavli Fellow Travel Grant  
Winners

## EDUCATION

---

### Masters in Neuroscience, Sep 2012 - Jan 2015

National Taiwan University,  
Graduate Institute of Brain  
and Mind Sciences

### Bachelors in Psychology, Sep 2008 - Jun 2012

National Taiwan University,  
Department of Psychology
